

A story by Lorenzo Barbieri & Etienne Hoekstra

Who is an environmentalist?

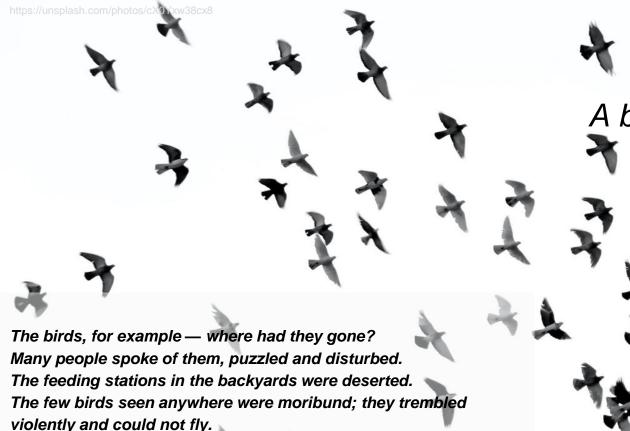

An environmentalist is a person who is concerned with and/or advocates for the protection of the environment.

It was a spring without voices. [...] only silence lay over the fields

and woods and marsh.

Limits to growth

"Unless special action is taken, human resource use and emissions will continue to increase as a consequence of growth in population and human activity. Importantly, this "human footprint" – if unchecked – will grow beyond the carrying capacity of the globe, that is beyond what the globe can provide on a sustainable basis. If such expansion into unsustainable territory is allowed to happen, decline – or collapse – in human resource use and emissions become unavoidable".
